Filing Date : 11 June 2004
Title : FLUID PUMP AND MOTOR

STATEMENT CONCERNING THE AMENDMENT (보정 내용 설명서)

Dear Sir/Madam:

Enclosed are amended sheets of a new set of claims, specification and drawing.

In the amendment of the claims, applicant respectfully requests that previous set of Claims 1 to 24 be replaced with the enclosed amended set of Claims 1 to 22. New Claim 1 has changed by comprising the limitation of original Claim 3. New Claims 3 to 16 correspond to original claims 4 to 17, respectively, without change in their subject matter. New Claim 17 corresponding to original Claim 18 has changed by comprising the limitation of original Claim 20. New Claims 18 to 22 correspond to original claims 19, 21 to 24, respectively, without change in their subject matter. The terms of "suction" and "discharge" defined in original Claim 21 corresponding to new Claim 19 have been changed to "inflow" and "outflow," respectively for clarifying their meanings. Accordingly, the specific claim changes in Claims 1, 17 and 19 are shown as below. The insertions are underlined while the deletions are ~~stricken through~~

1. A fluid pump, comprising:
a rotating chamber defined by first and second opposite wall surfaces and a third cylindrical wall surface for connecting the first and second wall surfaces to each other;
